

Privacy Impact Assessment register

Under the Privacy (Australian Government Agencies – Governance) APP Code 2017 (Privacy Code), the RWTF is required to maintain and publish a register of the Privacy Impact Assessments (PIA) it conducts for all high-risk privacy projects.

A project may be a high privacy risk project if RWTF reasonably considers that the project involves any new or changed ways of handling personal information that are likely to have a significant impact on the privacy of individuals.

Since the Privacy Code came into effect on 1 July 2018, RWTF has conducted no PIAs.

RWTF will incorporate PIAs into the register as they are completed.

Year	PIA Title	Project Description	Date Completed
2018-19			NIL
2019-20			NIL
2020-21			NIL
2021-22			NIL
2022-23			NIL

The register was last reviewed on 8 June 2023.
